

the Auburn Alumnnews

AUBURN ALUMNI ASSOCIATION

JANUARY, 1966

AUBURN, ALABAMA

Supported by 1965 Auburn Annual Giving—

President Names First Six Alumni Professors

ALUMNI PROFESSORS NAMED—President Harry M. Philpott, seated left, awards the first six Alumni Professorships created with funds from Auburn Annual Giving to outstanding faculty members at Auburn University. Seated with Dr. Philpott are Dr. John Lovell, educational administration, and Dr. H. H. Funderburk, Jr., botany and plant pathology. Standing, from left, Dr. William S. Smith, speech; Dr. B. F. Hoerlein, small animal surgery and medicine; Dr. R. I. Vachon, mechanical engineering; and Dr. Robert R. Rea, history. The three-year awards were effective on January 1.

Six Auburn Alumni Professorships, the first established under a recently inaugurated Auburn Annual Giving program, were announced last week by Auburn University President Harry M. Philpott.

Designated as Alumni Professors for their outstanding contributions in teaching and other work at Auburn were: Dr. B. F. Hoerlein, small animal surgery and medicine; Dr. John Lovell, educational administration; Dr. Robert R. Rea, history; and Dr. William S. Smith, speech. Dr. H. H. Funderburk Jr., botany and plant pathology, and Dr. R. I. Vachon, mechanical engineering, were designated as Alumni Associate Professors.

"This very fine support of the alumni in providing for these professorships represents a significant step forward at Auburn," Dr. Philpott said. "It is through such loyalty by the alumni and others that we will achieve our goal to provide for our students the highest quality instruction possible."

2900 Support AAG

More than 2,900 alumni and friends contributed last year to the first Auburn Annual Giving program to provide some \$163,000. The total included several major gifts by individuals, among them one by Dr. Estes Hargis '19 for the endowment of the Hargis Professorship of English Literature. This was the second professorship endowed by the Birmingham physician and alumnus. A third endowed professorship, the Gottlieb Professorship of Civil Engineering, has been created with the first recipient yet to be selected. This professorship has been established by Leon Gottlieb '22 of Columbus, Ga., and business associates in honor of two deceased brothers, Sam '33, and Jacob Gottlieb '21 who were engineering graduates of Auburn.

Alumni President Ken L. Lott '41 of Mobile said, "Appointment of these first Alumni Professors gives tangible evidence of how Annual Giving can accelerate the strengthening of the Auburn faculty. This was one of Dr. Draughon's continuing objectives—one of the good things which President Philpott has indicated he wishes to build on with support of Auburn Alumni."

Chairman Looks To '66

In Orlando, Fla., W. L. Sims II, national chairman for Auburn Annual Giving for 1966, expressed the hope that "this evidence of what 2,900 have made possible by their gifts last year will lead many more alumni to join AAG this year to sustain Auburn's advancement."

Effective Jan. 1, the professorships provide salary supplements to the recipients from money received through Annual Giving. The appointments are for three years.

Nominations for the professorships were made by deans and department heads and the list reviewed and screened by the Council of Deans. Final selection was by a University-wide group of faculty and administrative officials, with the approval of President Philpott.

Bradberry Takes New Alumni Post

Filling the new post of associate secretary of the Auburn Alumni Association is George L. (Buck) Bradberry. He was named to the post in late December following the appointment of J. Herbert White, former field secretary of the Association, as new director of the Office of University Relations.

In announcing Bradberry's appointment, Alumni Association Executive Secretary Joseph B. Sarver, Jr., said, "I am delighted to have a person long dedicated to the program of Auburn University, one who is known to thousands of alumni in his 15-year tenure with the University."

Sarver pointed out that since Bradberry joined the athletic department in 1951, more than half of the students who are now alumni have been enrolled at Auburn.

Bradberry's duties as associate alumni secretary will involve meeting with alumni clubs, organization of new clubs, direction of the annual giving program, and assisting Sarver with the Auburn Development Program.

Both Auburn's head coach Ralph Jordan, and Athletic Director Jeff Beard, expressed regret over Bradberry's resignation to accept the alumni position.

"I deeply regret that Bradberry has resigned to take the position as associate secretary with the Auburn Alumni Association," said Jordan. "Buck's loyalty, dedication, energy, and work with the Auburn offense has brought about 81 victories, 25 losses and four ties. Quite obviously, he will be greatly missed by the whole department, and it is a real personal loss to me."

"I will be able to continue to work real closely with Buck in his new position. I know he will do an outstanding

BRADBERRY . . . new field

431 Receive Degrees As—

Fall Graduation Honors Hargis

Intellectual accomplishment and the desire to help others—personified by distinguished alumnus Estes H. Hargis '19—merged to form the theme of the December 1965 graduation.

Dr. Hargis, whose contributions to Auburn include the establishment of two endowed professorships in English and American Literature, received the honorary Doctor of Science. The retired

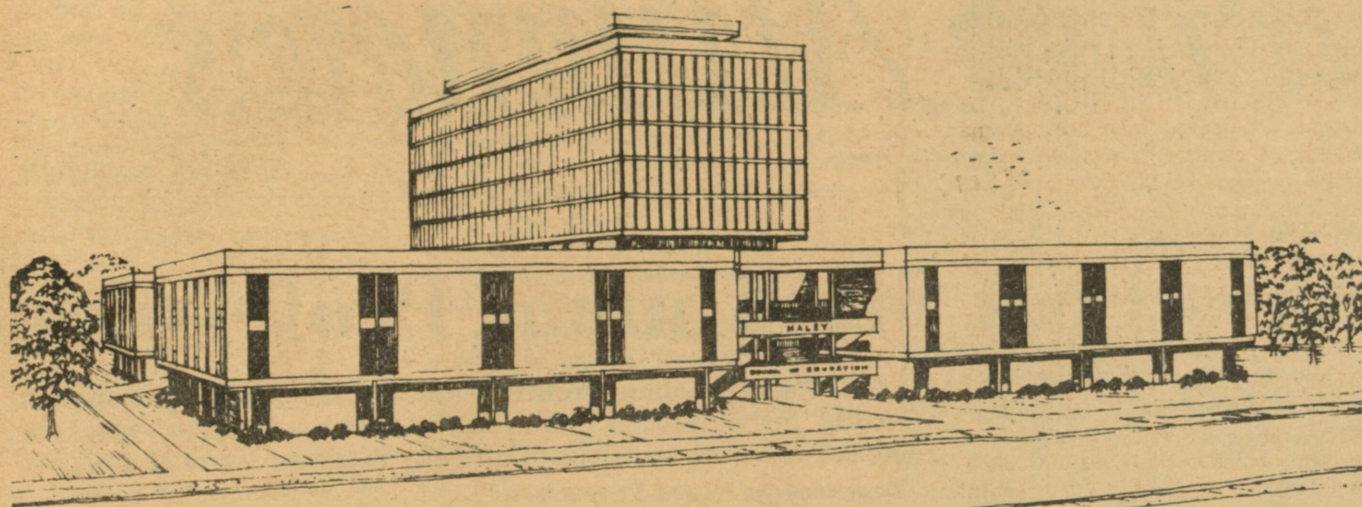

Birmingham physician has spent his life aiding people physically and spiritually and maintaining an active concern for

(Continued on page 10)

HONORARY DEGREE—Dr. Estes H. Hargis '19 receives his honorary Doctor of Science from President Harry M. Philpott at December 16 graduation exercises here. Dr. Hargis is a retired Birmingham physician and surgeon

New Building Complex To Honor Dr. Paul Haley

EDUCATION CENTER—If the legislature approves, Auburn University will name its planned educational center for Dr. Paul Shields Haley, vice president of the Board of Trustees. The center will house the Schools of Education and Science and Literature. The first three floors of the nine-story building will include classrooms, a bookstore, several teaching auditoriums, a language laboratory, and other special facilities. The

other six floors will contain offices. In size, Haley Center will be 347,000 square feet—approximately the combined areas of Draughton Library and Funchess Hall. Plans should be completed and approved by late summer with construction beginning in the fall. Completion date is set for late 1968. Total cost of the completed building and equipment is estimated at \$6,400,000. The complex will be built on West Thach Avenue.

Tincher Directs New Administrative Unit

First administrative re-alignment of President Harry M. Philpott was effective January 1: the creation of the Division of Educational Services. Heading the new service is Dr. Wilbur A. Tincher, Jr.

Tincher formerly headed the Office of Institutional Research which is included in the new unit he heads. Other units are the Offices of Admission, Registrar, High School Relations, and Pre-College Counseling. Tincher will work directly with the Office of the President to coordinate these closely related functions.

"These offices, working under separate direction, have been administered with a great degree of efficiency in the past. However, the increasing responsibilities each is experiencing with the rapidly growing enrollments at Auburn indicate the need for closer coordination of their functions in the future.

Dr. Tincher's valuable background in the Office of Institutional Research will serve to guide him in uniting these purposes to better serve the entire University," Dr. Philpott commented.

Dr. Tincher joined the faculty of the School of Education here in 1958 and moved to the Office of Institutional Research in 1963. A native of Frankfort, Ky., he holds A.B., M.A. and Ed.D. degrees from the University of Kentucky.

Dr. TINCHER . . . new position

After teaching in public schools, he was supervisor of teacher certification for the state from 1953-56, was a research assistant at the UK Bureau of School Service, and director of student personnel at Eastern Kentucky before coming to Auburn.

Currently he is president of the Alabama Guidance Association and vice president of the Faculty Club. He recently was made a deacon in the Presbyterian Church. He is married to the former Virginia Strohmeier, and they have two sons, Stephen Scott, 10, and John Edward, 7.

Pharmaceutical Firm Makes \$4,000 Grant

Auburn University has received a grant of \$4,000 from the Smith, Kline and French Foundation for support of research by Dr. Leon O. Wilken Jr., and Dr. Man M. Kochhar of the School of Pharmacy. President Harry M. Philpott announced this week.

The grant will allow the purchase of a Model DB recording spectrophotometer for use in studies involving the stability of drugs in medicinal preparations. The duration of effectiveness of modern organic medicinals is an important consideration in the preparation of drug products, especially those which are intended for use by injections, according to Dr. Wilken.

Drs. Kochhar and Wilken are engaged also in research involving natural products obtained from plants used for medicinal purposes. The new instrument will be used in certain aspects of this research also.

Auburn Student Is 'Best' In USMC Summer Duty

Sophomore Michael T. Larson of Trussville earned the "Commandant's Trophy" for Auburn by being selected the outstanding Platoon Leaders Class candidate from throughout the U.S. who trained at Marine Corps Schools in Quantico, Va., during the summer of 1965.

The "Commandant's Trophy" is presented annually to the college or

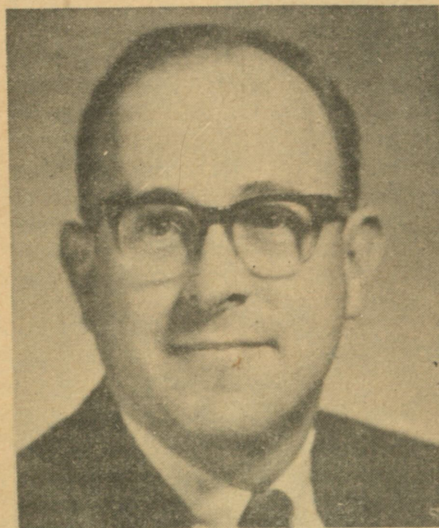

university of the outstanding PLC candidate. Larson, a student in civil engineering, competed with 700 other candidates in physical fitness, academic standing, and leadership ability.

PHILPOTT NAMES WHITE TO HEAD UNIVERSITY RELATIONS PROGRAM

New Director of University Relations for Auburn University is J. Herbert White '55. Appointment of White, former field secretary for the Auburn Alumni Association, was announced last month by President Harry M. Philpott. White succeeds Edwin M. Crawford '51 who on Jan. 1 became Director of Institutional Research of the National Association of State Universities and Land-Grant Colleges in Washington, D. C.

In making the appointment President Philpott said, "We are very pleased to fill this important position with a man who has a fine background in public relations work and who is thoroughly familiar with Auburn University. His experience as a student leader and in recent years as an important member of the Auburn Alumni Association staff provides Herb White with an excellent background to direct the University's public relations program."

The Office of University Relations will continue to operate directly under the

HERB WHITE . . . new job

Dr. Paul Shields Haley '01 will be honored by the largest education facility ever planned for Auburn University. Currently in his 49th year on the Auburn Board of Trustees, he has missed only one meeting. His continuous membership is a national record, and in 1963 the Association of Governing Boards of State Universities presented Dr. Haley its first "Outstanding Trustee" award.

After graduation from Auburn with highest honor, Dr. Haley did graduate study at Harvard. Since then he has spent most of his life in Jasper working as a consulting engineer until his retirement.

In 1961 Auburn awarded him the honorary Doctor of Science, citing him for his devotion of the advancement of learning, defense of academic freedom, and advocacy of academic responsibility. During Honors Day last May, Dr. Haley received the Algernon Sydney Sullivan award presented annually to two students and an alumnus for outstanding service to others.

Doughty Ends Long Extension Career

A 42-year Extension Service career ended for Sam Doughty when he retired as farm management specialist Dec. 30.

A native of Concord, Tenn., Doughty joined the Auburn University staff in 1923 as state poultry specialist after graduation from Iowa State University. He became county agent in Calhoun County in 1924, a position he held until coming to Auburn as soil conservationist in 1937. He has been a farm management specialist since 1956.

One of Doughty's major contributions to Calhoun County agriculture was a sound soil fertility program, teaching farmers to mix fertilizers until manufacturers improved the quality of the commercial product.

Doughty is a member of Gamma Sigma Delta, national agricultural honorary; Epsilon Sigma Phi, national Extension society; and was awarded a 40-year certificate of service in 1963. He is also an elder of the First Presbyterian Church of Auburn.

supervision of the President's office, Dr. Philpott added. Mr. White's responsibilities will include coordination of Auburn's total public relations and legislative programs and supervision of the University News Bureau and University publications. He will work with President Philpott in representing Auburn University before the Alabama Legislature.

A native of Enterprise, Mr. White graduated from Coffee County High School in 1951. He received his B.S. degree in Industrial Management from Auburn in 1955. As a student he was editor of the Auburn Plainsman and a member of Spades honorary, Blue Key, and Sigma Nu.

Following graduation he served two years in the Army Corps of Engineers and worked in private industry at Enterprise prior to his 1960 appointment as alumni field secretary. White has been active in community life at Auburn and was recently elected to the Board of Deacons of the First Presbyterian Church. He is married to the former Freda Steele of Phil Campbell. They have four daughters: Karen Louise, 7; Virginia Lee, 6; Miriam Steele, 3; and Kathryn Ann, 1.

Auburn Received \$3,222,296 For Research In 1965

During 1965 federal and state governments, industry, and private sources supported research and training under contract at Auburn University with more than \$3,222,296 in gifts, grants, and funds.

Nearly 80 per cent of the total receipts was from federal agencies and foundations which supported research and training in each of Auburn's divisions and in all of its academic schools except Architecture and the Arts.

Almost half of the federal receipts involved contracts with space-related agencies in Huntsville with total federal support of space-related research and studies at Auburn amounting to more than \$1 million.

Other major federal support included \$473,124 from the Public Health Service, \$328,350 from the U. S. Department of Agriculture, and \$305,189 from the U. S. Office of Education.

Funds received from the National Science Foundation amounted to \$189,346. Grants from the Department of the Interior supporting the Water Resources Institute totaled \$182,759. Other federal funds came from the Department of Commerce, U. S. Corps of Engineers, and the Tennessee Valley Authority.

Industry grants amounted to \$362,264 during the year with the largest coming from the Boeing Company, Alabama Power Company, and the International Paper Company.

Funds from private sources totaled \$252,553 including the first payment from the Rockefeller Foundation on a five-year grant and an endowment of more than \$100,000 from the E. A. Hauss estate.

State support, chiefly from the Alabama Highway Department, amounted to \$47,982.

UNIVERSITY FELLOWSHIPS — The Auburn Graduate School will use funds from cost-of-education allowances coming to the University through federally-supported fellowships to strengthen itself and assist various departments in obtaining a strong faculty. Ten University Fellowships with stipends of \$1,800 will be provided chiefly for departments which don't participate in many of the major federal fellowship programs. In addition, \$12,000 will be available for a limited number of supplements to departmental faculty budgets to enable a department to recruit or obtain outstanding faculty members critically needed for its program.

NSF FACULTY AWARDS—An Auburn faculty member, Will L. Liddell, Jr., '59 will participate in the 1966 National Science Foundation Science Faculty Fellowship Awards. Under the program, Mr. Liddell, assistant professor of mechanical engineering, will spend 14 months, beginning in September, at the University of North Carolina studying engineering mechanics and working toward a Ph.D. Four professors from other colleges will be doing advanced study at Auburn in Education, Agricultural Engineering and Mathematics.

VET CONFERENCE SPEAKERS — When Southeastern veterinarians met at Auburn in November, Auburn president Harry M. Philpott predicted evidences of the finest veterinary medical facilities in the U. S. at Auburn in the next two years. He also explained that Auburn will initiate additional graduate and post-graduate work in veterinary medicine in the near future. James E.

Greene, dean of the School of Veterinary Medicine, challenged current veterinarians to gear for the future by continued self-improvement. Two other lecturers cited examples of the increasing value of veterinary medical research to comparative medicine.

SUMMER INSTITUTES—The National Defense Education Act will sponsor two institutes in the School of Education and the National Science Foundation will sponsor an institute in the Physics Department. Funds for the three institutes total \$120,000. Dr. Grady A. Harlan will direct a Guidance and Counseling Institute for elementary school counselors, Dr. Marvin Dawson will head an Educational Media Institute, the first approved for Alabama, and Dr. Howard Carr will direct an Institute in Physics for High School Teachers, the first of its kind at Auburn.

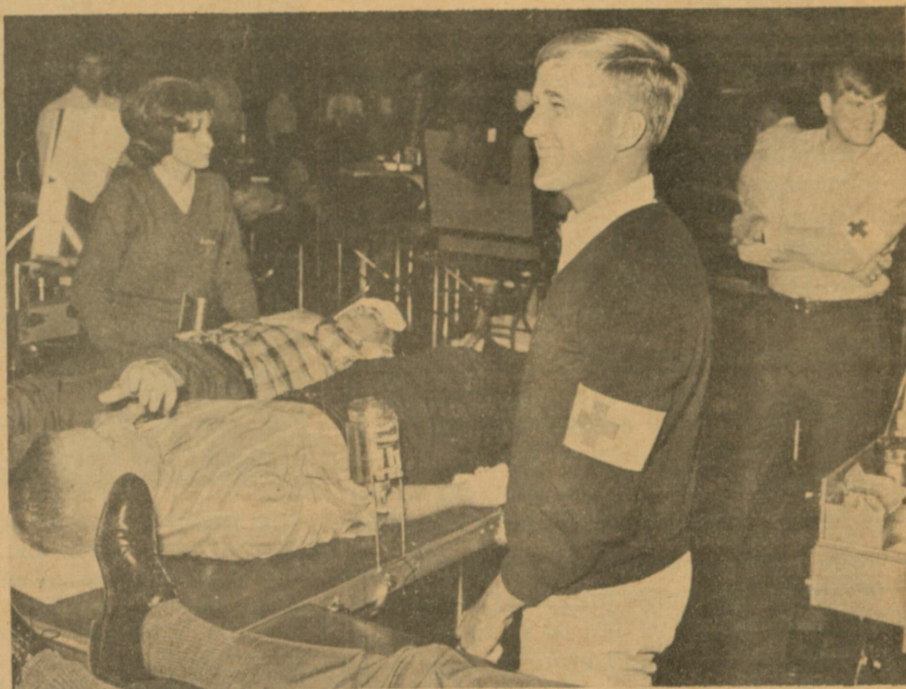

STUDENT MAGAZINES—First editions of two new magazines originated by the faculty and students of the Auburn School of Architecture and the Arts are in circulation. *Auburn Design*, published by the Industrial Design Forum, features award-winning designs by Auburn students William Bullock and George Cowgill. *Basis* uses the creative arts on a broad scale including short stories, poetry, art, and photography.

TRAVELING PROFESSOR EMERITUS—Dr. W. D. Salmon, professor emeritus, at Auburn University, recently had a leading part in "Nutrition Emphasis Week" at the University of Missouri. Dr. Salmon gave a lecture, took part in dedication of the Albert Garland Hogan Library, and was honored at a dinner following the dedication. Dr. Salmon was the first graduate student to study at Missouri under Dr. Hogan, a pioneer in nutrition research who was instrumental in discovering and indentifying several vitamins.

COTTON PROBLEMS — The Auburn Agricultural Experiment Station has received a \$99,000 grant from the U. S. Department of Agriculture for studying ways to cut cotton production costs. The Auburn grant is a part of a special \$1 million appropriation by the U. S. Congress for research aimed at cutting production costs for upland cotton by 11 cents during the next 5 to 10 years.

TRI DELTA SCHOLARSHIPS—Delta Delta Delta alumni and members of the local and national chapters of the sorority contributed funds for three scholarships recently awarded at Auburn. Scholarship recipients are Mavis Jean Rash of Blakely, Ga., Betty Carol Eason Burke, of Wetumpka, and Pat Henry of Montgomery.

S. A. M. MOVES—The Auburn chapter of the Society for Advancement of Management has moved from the Department of Industrial Engineering to the Department of Economics and Business Administration. The change was made because of the increase of management training in the Economics and Business Administration and also because of the curriculum replacement of industrial management by industrial engineering.

HIS INITIATIVE PAID OFF—Joe Busta, sophomore from Akron, Ohio, smiles as he watches fellow students donate blood for GI's in Vietnam. The Red Cross collected 1100 pints in the one-day visit last month. Limits of time and staff prevented a higher record. Busta is credited with the idea for the drive to show Auburn students' concern over the Vietnam conflict.

ANSON ELECTED—Dr. C. P. Anson, head of the Department of Economics and Business Administration at Auburn, is the new president of the Southern Business Administration Association. The organization covers 14 Southern states and is made up of 92 schools of business and departments of business administration.

NEW ENGINEERING HONORARY—Sigma Gamma Tau, national aerospace honorary, was chartered at Auburn University during December. Thirteen students and two faculty members were initiated.

VISITING LECTURERS—Kirk Newell '41, manager of the Range Evaluation Laboratories for General Electric, addressed the Auburn University engineering honorary societies at the December banquet. Dr. Edward W. Thomas, assistant professor of physics at Georgia Tech, addressed a Physics Department colloquium in Dec. 3. Dr. John E. Lefler of Florida State University spoke to the Auburn Section of the American Chemical Society on Dec. 14. Dr. F. W. Young, Jr., leader of the chemical properties of metal surfaces group at Oak Ridge National Laboratory gave a lecture to the Physics Department Colloquium on Jan. 7.

DEAN SPIDLE HONORED—Mrs. Marion Spidle, dean of the School of Home Economics, received a special citation from the Home Economics Division of the National Association of State Universities and Land Grant Colleges. The group honored Dean Spidle, who will retire this year, for services rendered during the past 28 years.

DYER GETS FELLOWSHIP—The National Science Foundation has awarded Dr. David F. Dyer, assistant professor of mechanical engineering, a post-doctoral fellowship for studies in combustion at the Imperial College of the University of London, England.

FACULTY APPOINTMENTS—Recent additions to the Auburn faculty include: Thomas L. Bransford, professor of civil

Phi Kappa Phi Taps 26 At Fall Ceremony

Speaking at the fall Phi Kappa Phi banquet, Auburn President Harry M. Philpott challenged members of Auburn's highest honorary to "Cultivate the fine art of discontent" and to use the major discontent to motivate them into service for other people.

Continuing, President Philpott said that a divine discontent will also keep one moving forward intellectually. "In the need for intellectual attainment one never arrives; only continues a journey. When you think you've arrived, you cease to exist."

Phi Kappa Phi initiated 26 new members preceding the banquet. To be eligible for the honorary, students must be in the top five per cent of their class.

Tapped for membership were undergraduates Anne Phillips of Auburn, Oliver D. Kingley of Ozark, Roberta C. McCue of Fairhope, Bobbie Thomas Umbach of Gold Hill, Harold H. Sorrell of Lanett, Grace H. Pritchett of Bessemer, Philip W. Garrison of Brewton, Johnnie B. Vinson of Enterprise, Robert E. Melton of Montgomery, Sharon A. Etheridge and Loretta Morton, both of Birmingham.

Raymond O. Cobb, Jr., of Atlanta, Ga., Ben A. LaRavia of Jonesville, La., Declan E. Huber of Maysville, Ky., Linda Kay Hines of West Paducah, Ky., Robert G. Belcher of Oakville, Conn., David W. Meeks, Jr., of Chiefland, Fla., and Johnny L. Junkins of Dalton, Ga.

Graduate students tapped include Albert Joseph Bekus of New Brunswick, N. J., Carolyn K. Geyer of Sioux Falls, S. D., James A. Buford, Jr., of LaFayette, Peggy Reid Poduska of Memphis, Tenn., Betty B. Layton of Brantley, Ray J. Vinson of Salem, and Jean N. Logan of Samson.

engineering; Zelma Lowell Taylor, Jr., assistant research professor of chemical engineering; Richard Glenn Eaves, assistant professor of European history; Dr. Charles Raymond White, associate professor of industrial engineering; Miss Peggy Reid Poduska, '63, instructor in economics; David Westcott Murrell, Jr., assistant professor of mathematics.

Those Professorships

A few days before *Alumnews* press-time, President Philpott announced the first recipients of the Alumni Professorships created through proceeds of Auburn Annual Giving for 1965. Rather than repeat our assessment of what we believe to be a truly historic event, we want to share, particularly with alumni beyond its circulation area, the editorial comment of *The Birmingham News*:

"Announcement that six Auburn Alumni Professorships have been awarded to faculty members is of much greater value than salary supplements the awards entail. (Though professors can use the money just as anyone else!)

"The professorships grow out of the first Auburn Annual Giving Program inaugurated last year. Some 2,900 alumni and friends of Auburn made contributions—several of them sizeable, but all of specific and significant value to an understanding of Auburn needs.

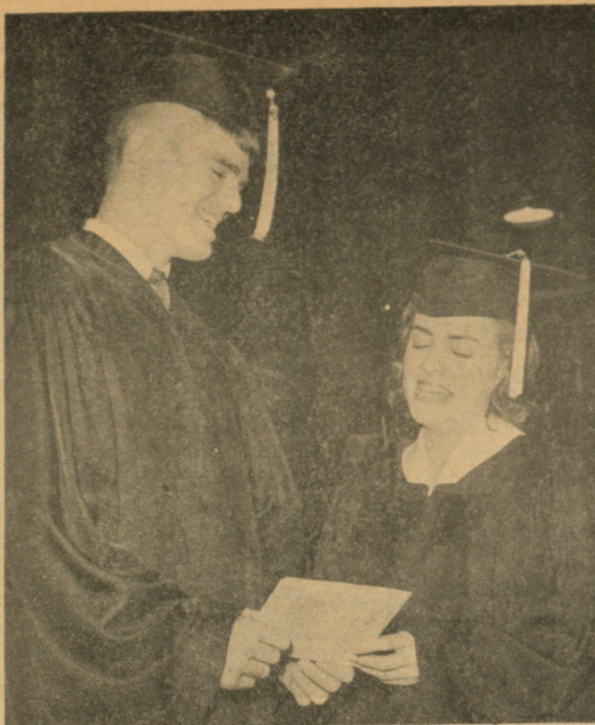

... "This kind of award program, with its inherent honor plus tangible financial asset to recipients, is certain to underscore Auburn administration and alumni concern for quality faculty. Members of that faculty are wholly familiar with continuing salary discrepancies among institutions, despite the success Auburn has had in elevating its salary schedules. Many a faculty member in the past has been happy at one or another institution in the South, yet found it necessary for financial reasons to go elsewhere.

"The Alumni Professorships do not solve the problem. But they concretely manifest concern of those interested in future effectiveness of Auburn, and an awareness on their part that quality faculty requires more than words—though words can be very important.

"The *News* commends the Auburn program, receivers of these first awards, and those who made them possible—large donors and small."

Why Excellence?

As even a casual observer of this paper knows, it has been a practice of some duration to salute academic accomplishments by Auburn faculty and students. The picture above may seem trite and, indeed, graduates "with highest honor" happily do compose a continuing procession. But until the ratio per graduating class is considerably altered, we think most alumni will join in extending

TOP GRADUATES AT AUBURN—Philip Wayne Garrison of Brewton and Cornelia Anne Phillips of Auburn were graduated "with highest honor" at Auburn University's fall quarter exercises. Garrison, the Outstanding Engineer of his class, was awarded the bachelor of aerospace engineering. Miss Phillips received the bachelor of science in chemistry. To receive the "highest honor" designation, a student must maintain a near perfect record throughout his four undergraduate years.

whatever recognition goes with a pictorial "congratulations" from *The Alumnews*.

A recent letter from proud and grateful parents prompts a reminder that this recognition of academic accomplishments does not mean that less-than honor students have been forsaken here. These parents were expressing their appreciation for an Auburn faculty that ingrained a love of learning and, knowingly or unknowingly, encouraged their son to attempt graduate school. As a result, he entered graduate school (at another school) on a conditional basis, developed into an honor student, and is now embarked on a teaching career.

So the "pursuit of excellence" seeks to transmit and add to man's knowledge through the encouragement of the most able scholars—teachers and students. But the goal, we believe, is more than the cultivation of an intellectual elite: the elevation and enrichment of the lives of those directly contacted in classroom and laboratory and in the less direct but ever widening circles of contacts beyond.

The Individual Counts

Periodically *The Alumnews* appears as a combined issue. Thus a November-December issue printed in mid-November to give the hard-pressed office staff a respite from frequent mailings and other duties. Promptly came a late-November and December deluge of appointments, grants and other significant events that may be unevenly reported in this issue which remains subject to the 16-page maximum.

One of the casualties was fuller treatment of student response to Vietnam. Pictures show two aspects—a blood-drive which produced a then-record 1100 pints, and co-ed production of dolls for distribution by men of the First Air Cavalry in their effort to be soldier-ambassadors in the unique and difficult war they are waging. By now it seems obvious that this is far more typical of student re-

Here and There—

On Speaking Out

By JERRY RODEN, JR., '46

For three or four years now *The Birmingham News* has urged members of the various professions to speak out more often and more candidly on public issues. A few weeks ago Editor E. L. Holland, Jr., again directed a plea to college and university professors for more letters to the editor. Subsequent issues of the state's largest daily indicate that Mr. Holland's latest request has had no more effect than those that preceded it. Perhaps it is time for both Auburn professors and alumni to give this matter some serious consideration.

Let us ponder three fundamental questions on the subject. The first question concerns the matter of rights: Does a professor have the right freely to spin his personal opinions about such controversial matters as war and peace, segregation and integration, federal control and states rights, or conservatism and liberalism?

The answer, at least in principle, is clear and simple: Outside the classroom and off the campus, the professor as a private citizen has exactly the same privileges and immunities as any other citizen; these include the right to speak freely from any available platform, including the letters columns of daily newspapers.

The second basic question concerns desirability: Is it desirable, as *The Birmingham News* suggests, for professors to speak out on burning issues in areas in which they have no special competence?

Again the answer seems rather clear and simple: This state often suffers from an excess of heat and a relative absence of light in discussions of controversial issues. The professor, regardless of his specialty, presumably holds truth and reason in high regard. His comments thus should serve to moderate the intensity of heated discussions and to direct attention toward acceptable solutions and alternatives.

The third fundamental question concerns responsibility: Does the professor, along with other professional men, have—as *The Birmingham News* infers—a special obligation to speak out on matters of general public concern?

The answer to this one seems a bit less obvious than those for the previous two questions: My first inclination is to assert that all qualified citizens have equal obligations. (continued on page 10)

action than the well-publicized, more bizarre incidents.

Most impressive to us, though, was the role of old-fashioned individual initiative. By campus accounts, Sophomore Joe Busta got the blood-drive ball rolling as an outgrowth of a fraternity-house "what can we do about it?" It seems Joe didn't let it die there. He button-holed a few key people, let the merit of a good idea build momentum, and the drive went on to success.

Any moral for those of us who may have let the years dull our ideas about what one individual can accomplish . . . in home, office, community?

Auburn Alumnalities

'13 Harris M. Baker now lives at 8100 S.W. 52nd Avenue, Miami, Fla.

'14 Frank P. Samford, Sr., chairman of Liberty National Life Insurance Co., was one of four Auburn alumni honored by the Downtown Action Committee during "Bulldog-War Eagle Week" in Birmingham.

'15 Kirk Theron Holley is retired after 38 years at the Georgia Experiment station at Experiment Ga. He and his wife Marguerite live in Griffin.

Married: Mrs. Alice Cary Pick '25 to Daniel DeKalb Gibson in Auburn on Dec. 15.

'17 John M. Ward was re-elected vice president of the state Chamber of Commerce at its annual convention during November.

New Address: Wilbur T. Shinholser, Boca Raton, Fla.

'18 M. L. Bonner has moved to 1007 E. Bade St. in Pensacola, Fla.

'19 George A. Mattison, Jr., Birmingham businessman and civic leader, will oversee the expansion of the present facilities of The Club, Inc., on Red Mountain. He was recently honored by the Downtown Action Committee of Birmingham during "Bulldog-War Eagle Week".

'20 Joel Johnson, Sr., president of the Geneva and Bama Cotton Mills, has been elected president of the Alabama Society of Crippled Children and Adults.

New Addresses: J. Pankey Hall, Montgomery, Tex.; Glenn E. Riddell, Hendersonville, N. C.

'21 Jack Marcus Baker is living at 1742 Kensington Road in Birmingham.

'22 Roy B. Sewell was honored by the Downtown Action Committee of Birmingham during "Bulldog-War Eagle Week."

New Address: Walker H. Mendenhall, Brookville, Pa.

'23 James L. Lawson is the new secretary of the Alabama Resources Development Committee, which was formerly Alabama Rural Areas Development Committee.

Mrs. Gladys Copeland Blake now lives in Golden, Colo., since her husband, Paul, has retired from the U. S. Geological Survey Division of the U. S. Department of the Interior.

'25 Albert L. Scott is vice president and treasurer of Alabaster Lime Co. in Montevallo.

Libba Duncan Pearson is new regent of Auburn's Lighthouse Harry Lee Chapter of the DAR. Her antebellum home in Auburn, Noble Hall, furnished with antique furniture, has been featured in "Old Homes of The South."

Walter L. Randolph of Montgomery has been re-elected vice president of the American Farm Bureau Federation.

Herman F. Schwekendiek has been with Southern Bell since graduation and is presently staff appraisal engineer.

New Addresses: Amby Campbell, 205 Pecan St., Albertville; Harvey M. Tyler, 142 Woodlawn Ave., Decatur, Ga.; Ruth Kernodle, P. O. Box 5556, Fayetteville, N. C.

'26 Morgan B. Smith has moved to Guntersville where his address is P. O. Box 12.

'28 Moreland G. Smith, widely-known Montgomery architect, has accepted a position with the Southern Regional Council in Atlanta where he will do a three-year study of urban planning.

W. D. Alston, public relations director for Southern Bell, has earned his second life membership during a year in the Birmingham Area Chamber of Commerce "Contact Club."

Frank Malone, president of Southern Bell, was honored by the DAC of Birmingham during "Bulldog-War Eagle Week."

New Addresses: George S. Williams, Montgomery; Herman T. Johnson, Avondale Estates, Ga.; C. C. Phillips, Sr., Dania, Fla.

'30 New Address: Richard H. Boyd, Wynewood, Pa.

'35 Miss Lucille M. Garrett now lives at 413 East Main St. in Lamoni, Iowa.

'33 New Addresses: Edward H. Linch, West Point, Ga.; Charles L. Hendrick, U. S. Naval Station General Delivery, FPO New York, 09540.

'34 Tom Shackelford, chief of the Water Safety Division of the Alabama Conservation Department, was elected president of the National Association of State Boating Law Administrators at their annual convention in Philadelphia. He currently has two daughters enrolled at Auburn. Tina is a junior, and Kay is a freshman.

E. L. Lowder, executive vice president of the Alabama Farm Bureau Mutual Casualty Insurance Co., has been re-elected to a three-year term on the board of the National Association of Independent Insurers.

Miss Iola Roberts has been honored by St. Clair County residents who renamed the South St. Clair School of

which she is principal, the Iola Roberts School. She has been a teacher and principal for 49 years.

'31 George D. Batchelder now lives at 1238 Glenhaven Drive in Columbia, S. C.

'36 New Addresses: Mrs. Ruth C. Naughton, Atlanta; DeOwen Nichols, Jr., Mountain View, Calif.; Paul S. Hicks, El Paso, Tex.

'37 Walter B. Gilbert has been appointed general manager of Foreign Sales for Texaco, Inc. He was formerly general sales manager for Texaco's domestic sales.

'38 William H. Gilmore was elected chairman of the Alabama-Mississippi Section of American Water Works Association, at the annual meeting held in Biloxi, Miss., during October. He is the director of the Public Water Supply Division of the Alabama Bureau of Sanitation.

Miss Mary Willie Graves teaches second grade at Dean Road School in Auburn. Before her return to Auburn she taught in Florida and at Pepperell.

A. M. Hocutt of Talladega has been re-elected a vice president of the Associated Industries of Alabama.

William C. Hitchcock has been named coach for the Atlanta Braves.

New Addresses: Mason Studdard, New Orleans, La.; Forrest Crabtree, Mobile.

New Addresses: Marion W. Walker, Maxwell AFB, Ala.; Capt. E. C. Lindon, Qtrs. K., U. S. Naval Base, Charleston, S. C.; Vernon R. Childress, Summit, N. J.

'40 New Addresses: W. B. Hunt, Jr., Decatur, Ga.; Lt. Col. Robert

HAWKINS . . . Admissions Officer

Auburn Names Hawkins For Admissions Post

Herbert N. Hawkins '50 will succeed E. J. Brumfield as admissions officer for Auburn University on Feb. 1. President Harry M. Philpott announced the appointment of Hawkins earlier this month after the late-November resignation of Brumfield who will return to his alma mater, the University of Kentucky, to become associate director of alumni affairs.

The admissions office is part of the newly created Division of Educational Services at Auburn, directed by Dr. Wilbur A. Tinch.

"I feel we are fortunate to be able to get Mr. Hawkins because of his former experience with high school relations and the many contacts he has already established with high schools," said Dr. Tinch.

Hawkins, now superintendent of city schools in Brewton, was high school relations officer for Auburn University in 1962-63. A native of Georgiana, he graduated from high school there before WW II service in the Air Corps. At Auburn he was a member of the "A" Club and Kappa Delta Pi. He received a master's degree here in 1957. Before serving here as high school relations officer, he was principal for three years at Geneva High School. Previously he had been a coach at Valley and Enterprise High Schools.

He is married to the former Abbie Jo Stone of Wichita Falls, Tex., and they have one son, Jim, 8.

"We deeply regret that we are losing Mr. Brumfield," said Dr. Philpott, "but we are pleased that the University of Kentucky, in naming him to this important post, has recognized his competence and abilities. I think no better evidence of his outstanding work can be shown than in the general rise in the academic calibre of students applying for admission. This can be attributed greatly to the personal interest and guidance he has given to those seeking admission."

Brumfield holds both B.A. and M.A. degrees in education from Kentucky and taught from 1949-53 in public schools in Kentucky. He then was assistant director of student affairs at Auburn until 1958, going to Lynchburg College as dean of students. He returned to Auburn in 1961 to the admissions post.

He is married to the former Mary Beale Maylor, and they have two children, Jay, 12, and Lucy, 8.

W. Dees, Los Angeles, Calif.; Orlando M. Holland, Kettering, Ohio; Paul M. Rudolph, New York, N. Y.

Dickson

Thornton

L. B. Dickson '26 has been appointed as specialist in statewide industrial promotion for the State Planning and Industrial Development Board. He had been industrial division director of the Alabama State Chamber of Commerce since 1957.

M. D. Thornton '31 has received an honorary life membership in the American Vocational Association. He is presently in his 17th year as vocational teacher at Montevallo High School. He and his wife, Mable, have three children. His daughter, Mary, teaches at Alabama College at Montevallo, and sons Jonne and Daniel are college students.

A THIRD LEGION OF MERIT—Upon his retirement from the Marine Corps last fall, Brigadier General Joseph L. Stewart '37 received his third Legion of Merit. This was an unprecedented peacetime award in recognition of his exceptionally meritorious service in development of the Marine Corps Reserve. Stewart now is senior vice president of Armstrong Rubber Co.

Stewart '37 Ends Marine Career

Brigadier General Joseph L. Stewart '37, who is now senior vice president of the Armstrong Rubber Company, recently retired from the Marine Corps after 28 and one-half years of service.

Upon his retirement, Gen. Stewart won his third Legion of Merit award. This unprecedented peacetime award for the Marine Corps was for Gen. Stewart's exceptionally meritorious service in development of the Marine Corps Reserve. Among the other important Marine Corps positions he has held are commanding

general of the Marine Corps Base at Twentynine Palms, California; director of the Marine Corps Command and Staff College; and Deputy Director, Plans, Supreme Allied Command Atlantic (NATO).

During World War II, General Stewart directed the operations division of the 5th Amphibious Corps, earning the Legion of Merit for his participation in the Pacific and the Bronze Star for his action on Iwo Jima. Serving as executive officer of the 5th Marine Regiment in the Korean War, Gen. Stewart was awarded the Silver Star for conspicuous gallantry during the bitter Chosin Reservoir campaign. In addition to the Silver Star, three Legion of Merits, and two Bronze Stars, he holds an Air Medal for his service in Korea.

Gen. Stewart graduated from Auburn with honors, as well as lettering in football, baseball, and track. He graduated from the Command Staff College in 1943 and the National War College in 1957.

Since joining the Armstrong Rubber Company, Gen. Stewart has resided in Branford, Conn., with his wife, Margaret, and their two daughters, Allison and Barbara. Armstrong, headquartered in West Haven, Conn., is the fifth largest tire producer in the world.

Auburn University opened as the East Alabama Male College with 80 students in 1859. It was closed in 1861 when students and faculty entered the Confederate service. The College was re-opened in 1866 and ran until 1872 when the property was deeded to the State of Alabama for the establishment of a public Land-Grant college.

NASA Grant To Add 12 PhD Candidates

The National Aeronautics and Space Administration has awarded Auburn a \$250,000 grant to support 12 graduate trainees in space-related sciences and technology. In September the new trainees will begin work toward the Ph.D. in agricultural engineering, agronomy and soils, animal science, botany and plant pathology, chemistry, electrical engineering, mathematics, mechanical engineering, physics, zoology, and entomology.

The 1966 grant is a substantial increase over the 1965 one which supported 10 students with \$184,000. At the end of the three-year period which the latest grant covers, Auburn will have received about \$758,000 from the NASA fellowship program.

The new grant begins Auburn's fourth year of participation in the program, according to Dr. W. V. Parker, Dean of the Graduate School. In previous years NASA has supported 10 new students each year, and the current enrollment is 30. The initial NASA fellows expect to receive their Ph.D.'s this year.

The new trainees will be selected from applicants all over the U. S. Interested students should apply to the department in which they expect to work. A stipend of \$2,400 is available to each trainee with added allowances for dependents.

In Memoriam—'04 Through '69

William Mason Wilson '04 died of a brain hemorrhage in April 1964. At the time of his death he was operating a cotton warehouse and cattle farm. He is survived by his son, W. D. Wilson '33, and granddaughter, Susan Driver Wilson '67.

W. Paul Watkins '07 died in Greenwood, S. C., on Nov. 5 following a brief illness. Survivors include his widow, Genevieve; one daughter, Genevieve of Charlotte, N. C.; two sons, W. P. of Greenwood, S. C., and H. Hunter of Greenville, S. C.; and five grandchildren.

Ernest T. Rouse '07 died Nov. 6 in Camden. He is survived by his widow, Mrs. Karrie Mae Rouse, and one son, Dr. Ernest T. Rouse, Jr., '39 of St. Louis, Mo.

Robert Love Kenan '14 of Montgomery died Dec. 7. He was the head of Robert L. Kenan and Associates, consulting engineers. Surviving are his widow, Mrs. Margaret Laurie Kenan, and a daughter, Mrs. Jean Kenan Stewart, both of Montgomery.

Jesse J. Warren '17 died Dec. 7 in Montgomery. His survivors include his widow, Mrs. Kathryn F. Warren, and three sons, James A., Joe S., and George W. Warren, all of Montgomery.

George T. Murrah '19 died in a Montgomery hospital Dec. 4 following a brief illness. Surviving are his widow, Mrs. Mary C. Murrah; two brothers, Robert and Jack Murrah, both of New York; and a sister, Mrs. Randall Browne of Panama City, Fla.

Edward Lee Ruff, Sr., '20 died Dec. 4 in Notasulga. Survivors include the widow, Mrs. E. L. Ruff; two sons, Edward Lee Ruff, Jr., Carrollton, Ga., and Robert Earl Ruff, Jacksonville, Fla.; and three brothers and four sisters.

James Crow Blalock '22 of Decatur died April 3. He is survived by his widow, Mrs. James C. Blalock.

Edward C. Sherling '22, prominent bank official and former Auburn football and baseball player, died at his home in Enterprise on Nov. 16. His survivors include the widow, Mrs. Madge M. Sherling; and three sons, Edward, Jr., and John of Atlanta, and George, serving in the Armed Forces in Germany.

James M. Hunnicutt, Sr., '22 died Nov. 11. He was president of Hunnicutt Engineering and Associates of Birmingham. Surviving are his son, J. M. Hunnicutt, Jr., '50 of Silver Springs, Md., and his daughter, Mrs. R. G. Leverty of Alexandria, Va.

W. Frank Powell, Sr., '25, purchasing agent for Auburn University since 1950, died of a heart attack at his home Dec. 11. He was chapter adviser to Delta Sigma Phi fraternity and was serving his second term on the international board of governors of the fraternity. Mr. Powell was a Men's Class teacher at First Baptist Church, a past president of the Auburn Lions Club, and active in the Red Cross and United Fund. Survivors include the widow, Mrs. Cinderella Powell, supervisor of women's dormitories for Auburn University; one son, W. Frank, Jr., '61 of High Point, N. C.; and two daughters, Mrs. H. C. Carson of Augusta, Ga., and Mrs. John P. Pittman of Decatur.

Bruce McGill Jones, Sr., '25 of Birmingham died Nov. 14. He is survived by his widow, Mrs. Ethel Green Jones;

one daughter, Mrs. William L. Bellande; two sons, Bruce M. Jones, Jr., and Claude Walter Jones; four brothers and four sisters.

Luther Edward Creel '28, well-known Montgomery educator, died at his home Nov. 26. He is survived by his widow, Mrs. Miriam Perrin Creel '30; a son, Luther Edward Creel, Jr., of Washington, D. C.; and a brother, Will Creel of Boaz.

Thomas P. Brown '31, president of Scientific Design Co., Inc., of New York City and former Auburn instructor in chemical engineering, died suddenly Dec. 13. He is survived by his widow, Mrs. Shirley B. Brown; his mother, Mrs. Winifred Forbes Brown of Mobile; and six sisters.

Col. Jesse D. Jackson '30 of Auburn died at Maxwell AFB Hospital following a lengthy illness. Survivors include his widow, Mrs. Isabel Jackson; two daughters, Mrs. Devon Luther, Baltimore, Md., and Miss Carol Jackson, Ft. Knox, Ky.; and two grandchildren.

Olin Henry LeNoir '31 of Montgomery died Dec. 17 following a brief illness. He is survived by his widow, Mrs. Willie Burton LeNoir; one son, Olin Burton LeNoir '65; father, Henry C. LeNoir; and brother, Ray H. LeNoir, all of Montgomery.

William Jerome Minter '32 of Waverly died Dec. 7. He is survived by the widow, one daughter, his parents and two brothers.

Bruston Lovell Hodnett '34 died Dec. 21 in Newbern, N. C., according to information received by the Alumni Association.

Henry Jones Lanier of Rock Mills died in October. Survivors include his widow, Virginia Dudley Lanier '36, and a daughter, Dudley Lanier Fuller '60 of Auburn.

Col. George McCutchen '38 died of an apparent heart attack while serving with the U. S. Army in Saigon, Vietnam, on Nov. 20. A decorated line officer in Africa and Europe in World War II, he had been on the Third U. S. Army Staff at Ft. McPherson, Ga., before his Vietnam duty. He is survived by his widow, Mrs. Nell King McCutchen, and daughter, Cathy McCutchen, both of Atlanta; his mother, Mrs. Maude McCutchen of Scottsboro; two sisters and two brothers.

Charles O. Sikes, Jr., '44 of Wedowee died Oct. 5. He is survived by his widow and a daughter, Margaret Ann Sikes, both of Wedowee.

Mrs. Elizabeth Chambless Braswell '45 is deceased, according to information received in the Alumni Office.

William Lifford Kirk '46 of Gordo died Nov. 29 after an extended illness. Survivors include his widow, Mrs. Margaret Turner Kirk; a son, Billy; three sisters, and two brothers.

David Edward Beverly '47 of Sweet Water died Nov. 7. Survivors include his widow, Mrs. Nelle Rose Beck Beverly; three sons, David, Jr., John, and Paul Beverly; three daughters, Rosemary, Rebecca, and Susannah Beverly; his mother, Mrs. John A. Beverly; two brothers, Ernest M. Beverly '50 of Ozark, and Curtis N. Beverly '49 of Sweet Water; two sisters, Mrs. Mary Nell Gholson, Atlanta, and Mrs. Ruth Peterson of East Lansing, Mich.

Sidney G. Adams '48 of LaFayette, La., died in an automobile accident

50 YEARS OF PRACTICE—A 75-year-old ear, throat, and nose specialist, Dr. Grady Page '11, of Orlando, Fla., has practiced medicine for 50 years and operated his own hospital for 22 years. Dr. Page was the first medical officer to reach the famous Lost Battalion of WWI when it was located.

Dr. Page '11 Is 'Man of The Week'

In July the *Orlando Sentinel's Florida Magazine* featured Dr. Grady Page '11 as man of the week. The 75-year-old ear, nose, and throat specialist was the first medical officer to reach the famous

Lost Battalion of WWI.

Aug. 8, 1964, according to information received in the Alumni Office.

Dr. James Nolan Neighbors '52, well-known Brewton dentist, died there Dec. 17 of a pistol wound, ruled suicide by the Escambia County coroner. He had practiced in Brewton since 1959. Survivors include three children and a former wife.

James Hubert Ivy '54, widely respected principal of Birmingham, died in a Boston, Mass., hospital Nov. 16. He is survived by his widow, Mrs. Mary Champion Ivy; one son, Jim Ivy; two daughters, Amy Sue and Beth Ann Ivy; parents, Mr. and Mrs. Charles A. Ivy of Birmingham; three brothers and a sister.

Billy W. Fowler '58 of Chattanooga was killed in an automobile accident on August 15.

Dr. John Colquitt Logan '63 died August 16 in Plains, Ga. Survivors include his widow, Mrs. Lora Logan; and a sister, Mrs. Rosa Brown of Montgomery.

Michael Glenn Magill '64 died Nov. 16 in Lewiston, Me., of injuries received in an automobile accident. He had been a student at Rennselaer Polytechnic Institute following graduation from Auburn. A member of Phi Kappa Phi and Phi Gamma Delta at Auburn, he is survived by his parents, Mr. and Mrs. Glenn T. Magill of Crystal River, Fla.

Lt. Elwyn Hamner '65 and his wife, Nancy Jo McKinney Hamner '67, were killed when their plane crashed Dec. 22 near Phoenix, Arizona. They were flying home for the holidays when the plane apparently hit a mountain-side while trying to fly under a storm. Elwyn was eagle trainer for the Auburn mascot longer than anyone else, working with both War Eagle III and IV. He graduated in August and received a commission in the Air Force. At the

As commanding officer of the 308th Ambulance Company of the 77th Division, Dr. Page "had plenty of opportunity to get wounded" but he "never got hit." When the war was over and Dr. Page was taking an advanced medical course at the University of Lyon in France, the noncommissioned officers of his company wrote a history of their company and dedicated it to Dr. Page.

Today Dr. Page says he doesn't know which makes him the proudest—"That my enlisted officers thought so much of me to dedicate the company history to me or the fact that I have practiced medicine for 50 years."

While he did his pre-medical work at Auburn, Dr. Page was captain of the track team and played halfback on the 1911 team which won the Southeastern championship.

He graduated from Vanderbilt University Medical School in 1915 and started his practice in Dothan. He returned there after WWI and stayed until 1929 when he decided to specialize.

After spending two years interning in New York, Dr. Page moved to Jacksonville, Fla. On his next move, he settled in Orlando where he's lived for 32 years. For 22 years he operated his own hospital, and for the past seven years he's been semi-retired although he still maintains an office.

time of his death he was stationed in Sacramento, Calif.

Lt. Donald E. Reeves '67 is believed to have drowned in Santo Domingo while trying to save the life of a fellow officer on June 17. He is survived by his wife, Mrs. Diane Paschal Reeves of Tallahassee; his father, Joseph Reeves of Tallahassee; and his mother, Mrs. Horace Williams of Opelika.

William Edward Little '69 of Piedmont died in an automobile accident as he returned to Auburn after the Thanksgiving holidays on Nov. 28. He is survived by his parents, Mr. and Mrs. Ed Little of Piedmont.

"MAN OF THE YEAR"—The *Progressive Farmer* has named William F. Nichols '39 as Man of the Year in Alabama Agriculture for 1965. A state senator since 1963, he is active in agricultural legislation. The Capitol Press corps voted him 1965's outstanding senator for sponsoring education bills.

Nichols Wins 'Man of Year' Honor

By E. L. McGRAW
Agricultural Experiment Station

A dedicated public servant would best describe William F. (Bill) Nichols, an Auburn graduate of 1939, named Man of the Year in Alabama Agriculture for 1965 by *The Progressive Farmer*.

Nichols has excelled as scholar, athlete, soldier, businessman, family man, and statesman during his career. At present he is a state senator, vice-president of Parker Fertilizer Co., and president of Parker Gin Co., Sylacauga.

A native of Mississippi, Nichols moved with his family to Sylacauga as a small boy where his father taught vocational agriculture and later became principal of the Sylacauga High School.

While at Auburn from 1937-39, Nichols was a tackle and co-captain of the 1939 team. He was also a member of Blue Key, Scabbard and Blade, Agricultural Club, A Club, and Gamma Sigma Delta, agricultural honorary. He received a B.S. in agricultural science in 1939 and M.S. in agronomy in 1941.

After graduation he was assistant county agent in Autauga County until his service in WW II, 1942-47. A lieutenant of field artillery, he was critically wounded in Germany in late 1944. He received the Purple Heart, Bronze Star, and three Battle Stars for his action. He retired as a captain.

Nichols joined the Parker Fertilizer Co. in 1947 as an agronomist. He was elected to the Alabama House of Representatives in 1959. During his term he was a member of the Ways and Means Committee and a strong supporter of educational legislation. He was also active in agricultural legislation

and was a member of the Agricultural Committee. During his term he was named a member of Alabama's Legislative Cotton Study Committee.

Elected to the Alabama Senate in 1963, he became chairman of the Cotton Study Committee. He is also a member of the powerful Finance and Taxation Committee, and chairman of the Military Affairs Committee. He has been the Administration's Senate floor leader. This year he was voted the most outstanding senator by the Capitol Press Corps for his sponsorship of bills adding monies to the Alabama educational program. He is a member of the joint interim cotton study committee.

Nichols is a past vice-president of the Alabama Soil Fertility Society, a past president of the Alabama Crop Improvement Association, a member of USDA's National Cotton Advisory Committee since 1962, a district soil conservation supervisor, and was recently appointed to the Board of Governors of the National Agricultural Hall of Fame.

He is married to the former Carolyn Funderburk of Dadeville, who also attended Auburn. They have three children; the oldest will be a freshman at Auburn University this fall. Nichols is an active member of the Methodist Church and a past chairman of the Board of Stewards in his local church.

ALUMNALITIES—Continued

their seven children live in Wood Dale. His daughter Sharon '68 works at the American National Bank of Chicago.

E. Claude Sanders, Jr., is an insurance consultant for New England Mutual Life in Huntsville.

Maj. Douglas W. Blalock has completed the associate course at the Army Command and General Staff College at Ft. Leavenworth, Kan.

Born: a son, Edward Morris, to Mr. and Mrs. Jack Henry Abraham of Montgomery on Dec. 11 . . . A daughter,

Mary Madeline, to Mr. and Mrs. Edward Maurice Eitzen of Birmingham on November 23.

'49 Archie D. Hooper, veteran fishery biologist with the Alabama Department of Conservation, has been appointed chief of the fisheries section.

Paul H. McQueen works with NASA at Redstone Arsenal in Huntsville.

Steven W. Blackburn of Cleveland, Miss., is an agricultural actuary for the

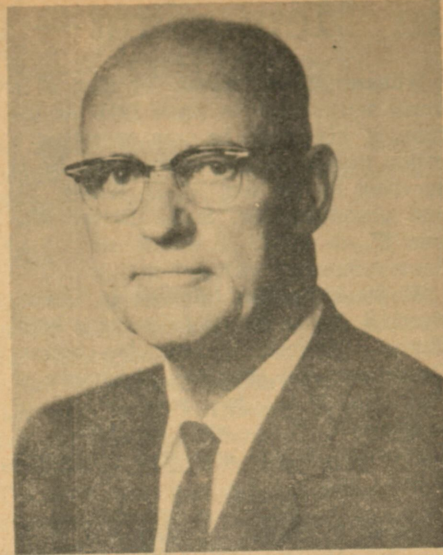

Friends Propose Award As Powell Memorial

Friends of the late W. Frank Powell '25 are invited to contribute to a memorial in his honor which will be presented to the outstanding undergraduate student in purchasing for 1965-66 at Auburn University.

Tentative plans are to use the funds for a cash gift and plaque. Although plans are for a one-time gift, if sufficient contributions are made, the memorial award will be carried over to other years.

Powell, who was purchasing agent for Auburn University for 15 years prior to his death in December, was often guest lecturer for the purchasing course in the Department of Economics and Business Administration.

All contributions should be sent, by Feb. 1 if possible, to R. J. Bear, comptroller, Auburn University Business Office. Make checks payable to the Frank Powell Purchasing Award Fund.

OLIN MEDLOCK . . . retired

Medlock '24 Retires As State SCS Head

Olin C. Medlock '24, state conservationist for the Soil Conservation Service in Alabama, has retired after more than 36 years in professional agricultural work. For the past 31 years, he has headed the State SCS—a record only one other state conservationist can surpass.

Mr. Medlock has received many awards for his services to agriculture and conservation, but a highlight in his career was the "Man of the Year in Service to Alabama Agriculture" award presented to him by *The Progressive Farmer* in 1953.

Leaving a job as horticulturist for Auburn University, Mr. Medlock joined the Soil Erosion Service—soon to become the Soil Conservation Service—in 1934. In seven years he saw Alabama change from a state backward in conservation practices to the first state to become completely organized into soil districts.

From the State's original 12 districts and 60 district cooperators, the organization has expanded to 66 districts with 330 landowners serving as supervisors. Once working only with individual landowners, the SCS now helps sponsoring organizations plan and install watershed programs and flood prevention measures, works with district soil and water conservation supervisors, conducts soil survey programs, and cooperates with other agencies to better serve the public.

On January 8, more than 200 friends and fellow workers joined together to wish Mr. Medlock the best in his retirement. Among the gifts presented him were more than 100 letters from friends over the States, ownership papers for a Black Angus bull, a shotgun and shells, and a hunting outfit.

Now that he's retired Mr. Medlock will continue to live in Auburn. He plans to raise cattle and carry out a conservation program on his farm with time out for occasional hunting.

William B. Lingle, assistant state conservationist under Mr. Medlock, has been promoted to state conservationist. A native of Mississippi, Mr. Lingle began working with the SCS soon after his graduation from Mississippi state in 1941. He came to Auburn two years ago after working with state conservation departments in Mississippi, Indiana, and Illinois.

been promoted to the rank of associate professor in the Department of Pharmaceutical and Medicinal Chemistry at the University of Tennessee College of Pharmacy in Memphis.

William T. Washington of Opelika has been appointed Lee County Civil Defense rescue services officer.

Federal Crop Insurance Corp. of the U. S. Department of Agriculture.

Charles E. Richardson, Jr., graduated December 10 from the advanced management program held at Harvard University Graduate School of Business Administration.

Edward B. Baumhauer of Mobile has been elected president of the Alabama Council of the America Institute of Architects at the council's annual meeting in Montgomery.

Wesley Ellis was recently presented in concert as a part of the Mobile Piano Ensemble in the Municipal Theater. He served as the conductor and composer of a four-part composition, "Suite for Two Pianos," as well as a performing artist.

Charles S. Moody, Jr., was recently promoted to lieutenant colonel at the Army Strategic Communications Command headquarters in Washington, D. C.

Capt. Charles T. Hudson has retired from the U. S. Air Force and lives in Fayetteville, Ark.

'50 Joe S. Jones of Jacksonville, Fla., is land acquisition and projects forester for St. Regis Paper Co.

Louis O. Abney, Auburn associate professor of art, recently completed a sculpture for the Montgomery Catholic High School in Valdosta, Ga. He is well known for his bas relief work.

Maj. George R. Whitley has been decorated with the bronze star medal at Tan Son Nhut Airfield in Vietnam. He is commander of the ground electronics engineering installation unit at Saigon.

Clark Hungerford has been named industrial engineer for Burlington Railroad with headquarters in Chicago.

Robert H. Nelson is with the sales department of Bristol-Myers Co. in Cincinnati, Ohio.

Born: A daughter, Robbin Faye, to Mr. and Mrs. Robert Chadwick of Washington, D. C. on Sept. 1. Robert is an attorney with the Pesticide Regulations Division of the Agricultural Research Service . . . A daughter, Alesia Ann, to Sgt. and Mrs. William L. Hildebrandt (Anita Ann Williams '62), now stationed in Germany.

'51 Mrs. Josephine Teague teaches fourth grade at Cary Woods School in Auburn.

M/Sgt. Paul H. Moore is stationed with the U. S. Army in Korea. His wife, Martion Stuart Moore '52, teaches at Bradwell Institute in Hinesville, Ga. Their son, Andy, is in the sixth grade.

Maj. Bill Rawlinson, who recently returned from a year's tour in Vietnam, was guest speaker for the Opelika Kiwanis Club on December 2.

Dr. James G. Beasley has recently

ALUMNALITIES—Continued

Ralph W. Bishop and his wife Dorothy '50 operate Bishop's Florist in Alexander City.

Wallace H. Burgess is manager of the Southern Tractor Center of Ford Motor Co. in Cordele, Ga.

W. A. Johnson, phone-power specialist for Southern Bell, spoke on "How to Utilize the Telephone as a Sales Tool" at the Alabama Trucking Association's Sales Seminar held in Birmingham on November 29.

A. Jackson Davis of Huntsville is secretary of the Alabama Council of the American Institute of Architects.

Glenn N. Maddox has been promoted to major in the Air Force. He is commander of Headquarters Squadron, 81st Combat Support Group at Bentwaters RAF Station, England.

'52 Maj. Daly H. Stanford recently received the Bronze star for heroism in South Vietnam. The medal was awarded at Ft. Leavenworth, Kan., where he studied at the Army Command and General Staff College after his return from Vietnam. He is presently stationed at Ft. Monroe, Va.

Capt. Harold F. Ledbetter is attending the USAF Air Command and Staff College at Maxwell AFB, Ala.

Gorman S. Pounders of the Louisiana Department of Highways has been promoted to assistant district engineer in charge of maintenance for District 61 which is headquartered in Baton Rouge.

Morgan Stickney is a soil scientist with the United States AID program in New Delhi, India.

Capt. George M. Hendricks, Jr., is stationed at Wethersfield RAF Station, England. He is a member of the USAF group assigned to NATO.

'53 Maj. James F. Lacy received the second oak leaf cluster to the U. S. Army Commendation Medal for outstanding service as a battery commanding officer, battalion executive officer, and instructor in artillery tactics at Ft. Sill, Okla. He is presently stationed at Maxwell AFB.

Guy Bruce is living in Salisbury, Md., where he is quality control manager for a Seaford, Del., poultry-growing firm.

Donald W. Woods works as a district ranger for the U. S. Forest Service in the Appalachian Ranger District of the Florida National Forests.

C. Floyd Daniel works in the Office of Development at Harding College in Searcy, Ark.

Oscar Pardue of Birmingham is the new treasurer of the Alabama Council of the American Institute of Architects.

Born: A son, Robert Brice, to Dr. and Mrs. Henry Stevens Adair, Jr., of Montgomery on Nov. 4 . . . A daughter, Jacqueline Sheppard, to Mr. and Mrs. Jack D. Blankenship of Birmingham on Nov. 13 . . . A daughter, Robin Lea, to Mr. and Mrs. James P. Richeson of Decatur on Nov. 12. Robin joins brother Jeff, 2½. James is maintenance supervisor in Chemstrand's polyester plant at Decatur.

'54 Dorothy Jordan Tumlin works with the Department of Pensions and Securities in Fort Payne.

Ellis W. Bullock, Jr. has been named District I supervising architect for the Florida Hotel and Restaurant Commission.

Beryl Toler is employed by the wood procurement division of the Tennessee River Pulp and Paper Co. in Savannah, Tenn.

Dr. Stanley Wilson recently transferred from Purdue University to Beltsville, Md., where he is the principal investigator in poultry breeding research for the USDA.

Married: Sara Elizabeth Smith '59 to John Harold Nichols on Dec. 11 in Montgomery.

Born: A daughter, Lillian Ann, to Mr. and Mrs. James Edward Ledbetter of Birmingham on Nov. 9.

'55 The Rev. Frank Wells, a Southern Baptist missionary to Indonesia, visited Baptist churches in the Montgomery area during his trip to the States in November.

Mrs. Nell Graben Gaither is teaching chemistry and physics at Gilmer High School in Ellijay, Ga. She and her husband, Gene, who works for the Georgia Soil Conservation Department, have a son, David, 9.

George D. King, Jr., is a civil engineer with the newly-created U. S. Department of Housing and Urban Development. He is located in Atlanta.

Charles Edgar Kennedy and his wife, Norma K. Beach '54, are back in Auburn where he is working on an M.S. in Mechanical Engineering. Charles holds an NDEA fellowship.

Fred Reynolds, Jr., is Soil Conservation District Supervisor in Henry County.

Donald E. Smith is in the forest management division of the Tennessee River Pulp and Paper Co. at Savannah, Tenn.

Born: A daughter, Jeri Ann, to Mr. and Jerry D. Green (Nancy Killgore) of Atlanta on June 24.

'56 Dr. Thomas B. Merritt, his wife, Joye, and two sons, Tom and Sam, are living in Bermuda where he is with the U. S. Naval Station Dispensary.

Johnny Mac Johnson, teacher of vocational agriculture in Union Springs, has been named "National Conservation Educator of the Year" in a new national conservation awards program sponsored by the National Wildlife Federation.

Wilbur Eugene Baker is a golf professional at the Greenway Country Club in Roswell, Ga.

Charles M. Jager has been nominated by the Montgomery Junior Chamber of Commerce to compete in the Ten Outstanding Young Men of America contest in January. He and his wife, Rosemary Smith '57, have four children: Merri Lynn, 9; Steve, 6; Leigh Ann, 4; and Jimmy, 2.

Married: Georgia Bibb Tweedy to Thomas Mason Paschall in Jasper on Dec. 28.

Born: A son, Doyle Madison, III to Mr. and Mrs. Doyle M. Dillard, Jr., (Shirley Brown) of Mobile on May 18. He joins sister Diana, 3 . . . A daughter,

RECEIVES MEDAL—Lt. Col. Donald I. Hackney '45 (right), a student at the U. S. Army War College, is congratulated by Maj. Gen. Eugene A. Salet, commandant of the Army War College, after receiving his first Oak Leaf Cluster to the Air Force Commendation Medal. Col. Hackney was cited for his services as Special Assistant to the Chief, Engineering Division, Office of Supersonic Transport Development, Federal Aviation Agency, Washington, D. C., from July 1961 to June 1965. He and his wife, Thelma have two sons—Donnie and Jimmy. Col. Hackney is a native of Opelika, Ala. His mother, Mrs. Susie Hackney, is secretary for the Army ROTC at Auburn.

BRADBERRY

(Continued From Page 1)

job with the Alumni Association, and he has my best wishes," Jordan added.

Beard said Bradberry's acceptance of the position represents "a great loss to the athletic department—not only as a coach, but as a close friend.

"In my many years in athletics, Buck represents the very finest in the coaching profession. His energy, hard work and extreme loyalty will be sorely missed. However, I am happy he will still be able to serve our University in his new position," said Beard.

Bradberry, commenting on his new position, said, "This was the toughest decision I've ever had to make. I love the Auburn athletic department and coaching, but this was an opportunity I couldn't turn down.

"In the 15 years I've been with the athletic department I have done much scouting and public speaking, working with the Alumni Association in every area of the country. This should be a great advantage in the new job and one that will make me feel I am still working closely with the athletic department."

Bradberry came to Auburn in 1951 with Coach Jordan as defensive backfield coach and became offensive backfield coach in 1955. In the 11 football seasons since that time, the team's record has been 81-25-4, second highest in the SEC and beaten only by the University of Mississippi which holds a record of 86-17-5.

A native of Athens, Ga., Bradberry lettered four years at the University of Georgia as a defensive halfback. He entered the Navy in 1945 but returned for the 1946 season. He played for Georgia in the Sugar Bowl that year, in the Gator Bowl in 1947, and in the Orange Bowl in 1948.

Graduating in 1949, he coached the Georgia freshman team one year and

the Oklahoma A & M freshman team in 1950 before coming to Auburn.

Bradberry has not only been active in recruiting for the Auburn Tigers, but has taken part in civic activities and is a deacon in the Presbyterian Church. He has taught seventh and eighth grade Sunday School classes for the past five years.

He is married to the former Mary (Butch) Palmer of Opelika, and they have four children, Julee, 12; George, Jr., 11; Jimmy, 7, and John, 4. Mrs. Bradberry was graduated from Auburn with the bachelor of applied arts in 1952.

25 New NDEA Awards Bring AU Total To 49

The National Office of Education has awarded Auburn 25 new three year National Defense Education Act Fellowships and committed 37 additional fellowships to Auburn during the next two years for a total of 62 new fellowships by 1968.

The 25 new fellowships, in nine areas of study, begin in the 1966-67 academic year. Along with the 24 current NDEA fellowships previously awarded, Auburn will have 49 NDEA fellows on campus next fall.

The areas of study approved for the new fellowships include agricultural engineering, agronomy and soils, animal science, chemistry, electrical engineering, English, mechanical engineering, physics, and zoology.

Dr. W. V. Parker, dean of the Graduate School, says that, with the addition of the other 37 fellowships, Auburn will be receiving in total allowances for the new fellowships more than \$1 million over the next five years.

Of the \$1 million in allowances, about \$400,000 will be allocated to the University for support of the graduate program. The NDEA fellows will receive the balance as stipends and allowances.

Alumni Faces In The News

Moore

Meeks

Mrs. Marion Stuart Moore '52 is currently president of Liberty County, Ga., G.E.A. for the school year. She teaches seventh grade at Bradwell Institute in Hinesville, Ga.

Dr. Ronald A. Meeks '56 was recently installed as president of the Cincinnati, Ohio, Veterinary Medical Association. He and his wife have three children, Renee, 8, Lisa, 2, and David, 4.

Basketball Teams Win 7 Before Sugar Bowl Losses

The basketball team got off to its best start in six years, winning seven straight, including the Tampa Invitational Tournament.

The Tigers opened the season with a 91-74 triumph over Rice

University of the Southwest conference. Senior forward Lee DeFore hit 15 field goals and all five free throws for 35 points to lead Auburn in scoring.

DeFore came back with another 35 point effort in the second game as Auburn defeated Jacksonville State College. Against Florida State University, DeFore scored 34 points on a neutral court in Pensacola, Fla., then followed that up with a 32-point effort against Houston in the Sugar Bowl Tournament, though Auburn lost its first two games of the year there.

The big 6-6 forward has broken the all-time Auburn scoring record of 937 held by Rex Frederick. DeFore has scored 1,066 in less than two and a half seasons, so every point he scores from now on is a record.

AUBURN 72—MISSISSIPPI STATE 83

After posting a 7-2 record in non-conference games, the Tigers started SEC play on the wrong side of the ledger. Mississippi State got a 33-point effort from sophomore David Williams and beat the Tigers by 11 points in Auburn.

Junior Jimmy Montgomery had his

Elliott Reverses Field, To Remain On AU Staff

At press-time the Birmingham Post-Herald, quoting the Knoxville Journal, printed a story saying that Jerry Elliott '57 had changed his mind and would remain as assistant football coach at Auburn. Earlier Elliott had announced that he was joining the coaching staff of the University of Tennessee.

Coach Doug Dickey of the University of Tennessee was quoted as saying that Elliott had told him of the change in plans in Washington, D. C., where Elliott and the other members of the Auburn athletic staff were attending the National Collegiate Athletic Association Conference.

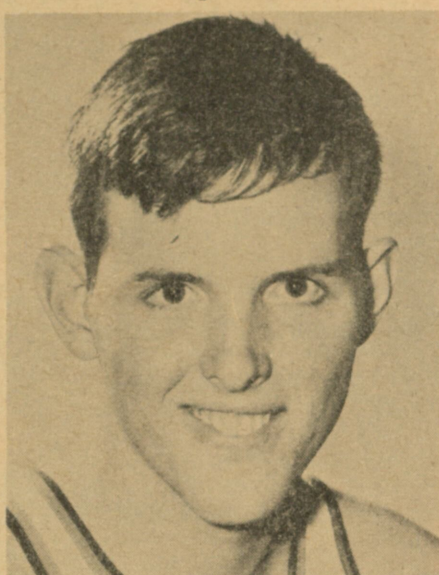

Here and There

(Continued From Page 4)

but the second thought suggests that such a conclusion represents a rather lame egalitarianism. It ignores the moral imperative of the parable of the talents. Besides, who has a greater stake in the satisfactory operation of the democratic process than the professor? And how can he really help prepare students for their roles of democratic citizenship if he evades full commitment to his own duties as citizen?

Having answered these principal questions, or question of principle, to my own satisfaction, I anticipate a flood of letters from alumni urging Auburn professors to assert their rights and fulfill their special obligations. Subsequent to that flood, I further anticipate that Auburn professors will set such an example for other college professors in the state that The Birmingham News will have to establish a special section for letters from professors and from other professional people who will follow the example of the scholars and scientists.

In the unlikely event of a failure to realize my hopeful anticipations, I will at least expect from alumni some further discussion of the fundamental questions. For it is my firm belief that the attitudes of a substantial portion of alumni serve as one of the principal deterrents to professors who would otherwise speak out.

DE FORE . . . A New Record

best night since coming to Auburn and scored 21 points, as did DeFore.

AUBURN 74—LSU 66

Trailing by 11 points with just three minutes left in the half, Auburn hit four straight baskets and cut the margin to only three at intermission. The Tigers then hit an early hot streak and quickly took the lead in defeating LSU on the road.

DeFore was Auburn's top scorer with 21, but it was the outside shooting of Montgomery and the all-round floor game by Bobby Buisson that turned defeat into victory. Montgomery made 16 of his 20 points from the field and Buisson added 16 in his best scoring night of the year.

AUBURN 92—TULANE 58

Guard Bobby Buisson did an outstanding defensive job on Tulane's high scoring guard Al Andrews, while his teammates were hitting 58 per cent of their floor shots as Auburn scored a season high of 92 against the Green Wave.

Montgomery was high for Auburn with 20, followed by Ronnie Quick with 18 and Joe Millsap with 10. DeFore was held to his lowest total in 29 games, scoring only nine.

Scores of earlier games were:

Auburn 91	Rice 74
Auburn 78	Jacksonville St. 50
Auburn 77	Jax (Fla.) U. 69
Auburn 79	Georgia Tech 74
Auburn 76	Columbia 75
Auburn 59	FSU 58
Auburn 80	FSU 64
Auburn 71	Dayton 85
Auburn 76	Houston 89

Hargis Honored

(Continued From Page 1)

their education.

As the citation accompanying his honorary degree reads, Dr. Hargis "has forcefully demonstrated his particular concern for problems of higher education in Alabama, and has permanently affected the character of his Alma Mater and its mission of teaching and research through his strong conviction that in a scientific age the humanities must maintain their traditional position as the great foundation of all university study."

Commencement speaker, Dr. Wallace M. Alston, Sr., president of Agnes Scott College, told graduates and their parents that the modern world needs an aristocracy of intelligence, imbued with a strong sense of social responsibility.

The big moment for the 431 graduates came when Dr. Harry M. Philpott began conferring degrees—his first since com-

ALUMNALITIES—Continued

ter, Caryn Michele, to Mr. and Mrs. William Brantley Frith of Montgomery on Oct. 23 . . . A daughter, Anne Marie, to Dr. and Mrs. Emory E. Holland of Elkins Park, Pa., on Oct. 29. Dr. Holland is head of the Psychology Department and Director of Guidance at the Community College of Temple University in Philadelphia, Pa. . . . A daughter, Kala Cordray, to Mr. and Mrs. Fred C. Parker of Birmingham on Nov. 24 . . . A son, Neal Allen, to Mr. and Mrs. Kenneth A. Tew, of Louisville on Dec. 1. Neal joins Mona Rebecca, 7, and Sharon Carol, 4. Kenneth is district representative for Allis Chalmers in south and central Alabama.

'57 Lawrence W. Hill is an associate with Heidrick & Struggles, Executive Search Specialists in Chicago.

Walter N. Rozelle, Jr., has been named associate editor of Textile Industries in Atlanta.

Neal O. Terry has been promoted to area supervisor in intermediates manufacturing at Chemstrand's Pensacola nylon plant.

Harold W. Wells is a student at New Orleans Baptist Theological Seminary.

Breeden

Daniel F. Breeden '57 is the new manager of the Hot Springs, Ark., plant of National Rejectors, Inc. He was formerly general superintendent of fabrication in the NRI St. Louis plant. He and his wife, Jo, have a daughter, Stacy, 1.

Charles H. Wilson '59 recently took a job as representative for the Charlotte District Sales Office of the Sandoz Chemical Division in Charlotte, N. C.

Wilson

ing to Auburn. Earlier in the day Dr. Philpott spoke at ceremonies when 35 senior cadets were commissioned into the Army, Navy, and Air Force. In his speech, Dr. Philpott reminded the cadets that they are entering the military to serve their country and their fellow man.

Nine of the 431 students graduated with honor. Cornelia Anne Phillips of Auburn and Philip Wayne Garrison of Brewton made almost perfect records during their four years of undergraduate work and graduated with highest honor.

Robert Gordon Belcher of Oakville, Conn., and Raymond Oliver Cobb, Jr., of Westminster, Calif., graduated with high honor maintaining a 2.6 out of a possible 3.00 grade point average. Five other seniors graduated with honor and kept grade point averages of 2.4 or better. They were Betty Carol Eason Burke of Eclectic, Sharon Ann Gallant Etheridge of Birmingham, Grace Hines Pritchett of Bessemer, Johnnie Bedsole Vinson of Enterprise, and Bobbie Gary Thomas Umbach of Auburn.

Ernest E. Hermann, Jr., is again associated with the Alabama Department of Health after receiving his M.S. in Food Technology at the University of Tennessee in August.

James H. Cleveland lives in San Antonio, Tex., where he owns Cleveland's Professional Pharmacy.

Harold Coan of Haleyville is a forester for the Tennessee River Pulp and Paper Co.

Sam T. Hall of Midway was the first alternate in the discussion meet sponsored by the Alabama Farm Bureau's Young People's Committee.

Donald McKee of Tanner is a leader in the Limestone County Farm Bureau's Young People's Committee.

Glenn Plummer of Savannah, Tenn., is in the technical economics department of the Tennessee River Pulp and Paper Co.

Married: Mary Jo De Shazo to Milton Ellis Jeter in Leeds on Jan. 15 . . . Judith Louise Steward to Fred Leslie Sheridan in Arlington, Va., on Dec. 18.

Born: a daughter, Alison Leigh, to Dr. and Mrs. William Sugg of Chapel Hill, N. C., on Nov. 23. She joins brother Will, 3½. Dr. Sugg is chief resident of internal medicine at the North Carolina Memorial Hospital at Chapel Hill . . . A daughter, Kristen Anne, to Mr. and Mrs. Johannes I. Olsen of Montvale, N. J. . . . A son, William Gould to Mr. and Mrs. Wilton Sturges (Mary Perry Kennedy '58) of Baltimore, Md., on Aug. 30. He joins big brother Jim, 2½. Wilton is working on his doctoral dissertation in the Department of Oceanography at Johns Hopkins University.

'58 James Carpenter is a forester for the Tennessee River Pulp and Paper Co. in Tuka, Miss.

Dr. Billie A. Pennings is practicing with Dr. N. Annelda Baetz '47 in San Antonio, Tex.

Billy Maples of Elkmont was re-elected Chairman of the Young People's Committee and a member of the board at the annual meeting of the Alabama Farm Bureau.

John Mosley of Ozark has won this year's Outstanding Young Educator Award given by the Alabama Junior Chamber of Commerce. He and his wife, Sue Ellen, have a daughter, Elizabeth, 3.

Married: Janice Fay Williams to Robert W. McCracken, Jr., in Atlanta on Dec. 18.

Born: A son, Reginald Irene, Jr., to Dr. and Mrs. Reginald Irene Vachon (Mary Eleanor Grigg '64) of Auburn on Oct. 24 . . . A daughter, Valerie Jean, to Mr. and Mrs. Jeff M. Sirmon of Susanville, Calif., on Nov. 4 . . .

'59 Franklin C. Clapp transferred to the home office of Chicago Bridge and Iron Co. in January, 1965, where he works as a standards engineer. He and his wife, Barbara Tamblin '59, and their daughters, Sharon, 5, and Judi, 2, live in Wheaton, Ill.

Cletus E. Morris is research chemist with the Southern Utilization Research Division of the Agricultural Research Service in New Orleans. He expects to receive his Ph. D. from Auburn in June, 1966.

Warren Edward Claflin has been appointed an associate engineer at the Philip Morris Research Center in Richmond, Va.

Auburn Scores In State Recruiting

Signing high school football players usually turns out to be the most frantic part of the season, and, as always, there are "some big ones who got away."

However, this year Auburn signed more of the top boys in the state than it has been doing for the past few seasons and prospects for the next few years are bright.

Auburn signed only one quarterback, Raymond Weaver of Guntersville, but he is an outstanding prospect. Weaver passed for 10 touchdowns, but more impressive is the fact that he scored 19 TDs rushing. Also, he had a 43-yard punting average, which included a 74-yard kick against West End.

As a group, the signees are not as big as they have been in the past, but there appears to be more speed throughout the group. The fastest boy, based on track performances as a junior, is Bill Rhodes, a 6-0, 165-pounder from Hender-

son, Tenn. Rhodes has been clocked in :09.8 in the 100-yard dash.

Through mid-January, Auburn has signed 33 athletes to grants-in-aid. Tiger scouts are still out talking to some of the top boys in Texas and Michigan, as well as the neighboring states.

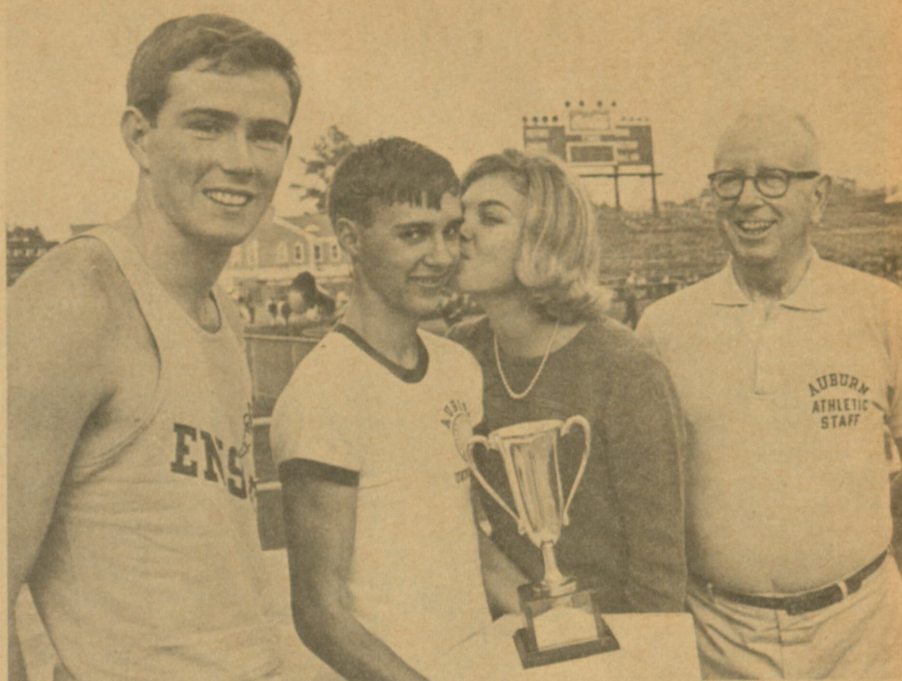

Elsewhere on this page is a complete list of Auburn's signees.

Christopher Sets New SEC Record At Sr. Bowl Meet

Although he did not win the Senior Bowl meet, Auburn's Tom Christopher bettered any previous SEC record in the pole vault.

Competing for the first time since he broke a leg last March, Christopher cleared the bar at 15-1 3/4. John Pennel, the best vaulter in the nation, won the meet at 16-1.

However, Christopher's mark goes into the Auburn record books and this makes the Florence, Ala., junior the man to beat in the SEC this year.

TRADITIONAL RACE—TRADITIONAL PRIZE—Greg Brandon, second from left, a freshman in pre-engineering from Rome, Ga., receives a trophy, a cake, and a kiss from Miss Auburn, Chris Akin of Montgomery, after winning the 2.8-mile Omicron Delta Kappa-Wilbur Hutsell Cake Race at Auburn University. Looking on are, left, Paul Robbins of Anniston, who took second place in the race, and right, Wilbur Hutsell, retired Auburn University track coach who initiated the freshman cake race 37 years ago.

ALUMNALITIES

— continued —

Gerald C. Goggin, Jr., is a student at New Orleans Baptist Theological Seminary.

Married: Brenda Elaine Mitchell to Robert Roy Coats, Jr., in Birmingham on Jan. 1 . . .

Born: A daughter, Margaret Ann, to Mr. and Mrs. Austin Ray Melton of Montgomery on Dec. 7 . . . A son, Noel Lee, to Mr. and Mrs. Gordon L. Robertson, Jr., of Auburn on Nov. 11 . . . A daughter, Brenda Louise, to Mr. and Mrs. Charles T. Ingram (Virginia Patterson) of Aiken, S. C., on Oct. 23 . . . A daughter, Melinda Ann, to Mr. and Mrs. Charles Shepherd, Jr. of McKenzie on April 28. Charles is branch manager of the McKenzie Bank.

'60 The Rev. Henry A. Tidwell, former minister in Libby, Mont., has been called to active duty as a U. S. Navy chaplain. He is assigned to the USS Arcadia for a three year tour. His wife and children, Scott and Kay, will join him at the ship's homeport in Newport, R. I., in June.

Albert S. Hill has been appointed branch manager of the Mobile Office of

Notes Of Unusual Achievement

Dr. JOHN C. GLENN '53, assistant professor of Animal Science at Louisiana State University, will be on leave for two years beginning in February to act as a consultant to the Universidad de Oriente in Jusepin, Venezuela. His duties will include the planning and implementation of a School of Zootechnia. For the past two years, Dr. Glenn has been involved in other short-term projects for the University as a consultant for the Ford Foundation. He previously worked with Oklahoma State University's contract program in Ethiopia from 1959 to 1961. His wife and four daughters will accompany him to Venezuela.

CRAWFORD A. ROSE '22 retired in November as an Extension County agent in East Carroll Parish, La. His 42-year career in farm work has earned him the title of "Dean of County Agents" from his fellow Extension workers. He spent 35 years in East Carroll Parish where, in 1938, he introduced the first rice production to the parish. Today

rice makes a significant contribution to the parish's agriculture income. He has made other valuable contributions to agriculture in both Louisiana and the South. Included in his many honors for service to farmers are awards for excellence in agricultural news writing.

KEN L. LOTT, JR., '41, current president of the National Auburn Alumni Association, has been elected senior vice president of the Merchants National Bank of Mobile. He became a vice president in 1957 after working in the Merchants National foreign trade department for nine years.

JAMES M. HUNNICUTT, JR., '50 chief of the Bureau of Parking of Montgomery County, Md., has served as president of the International Municipal Parking Congress during the past year. For a number of years he has been a member of several national study and advisory committees on highways, traffic, and parking.

partment at Valdosta State College in Valdosta, Ga.

Capt. Roy L. Mims, has been admitted to practice before the U. S. Patent Office in Washington, D. C., as a registered patent attorney. He is married to Ann Owsley '60 and they have one daughter, Lee.

Noah T. Gilbreath, Jr., is a senior at Howard College where he is studying pharmacy.

Jackie Burkett plays professional football with the Baltimore Colts.

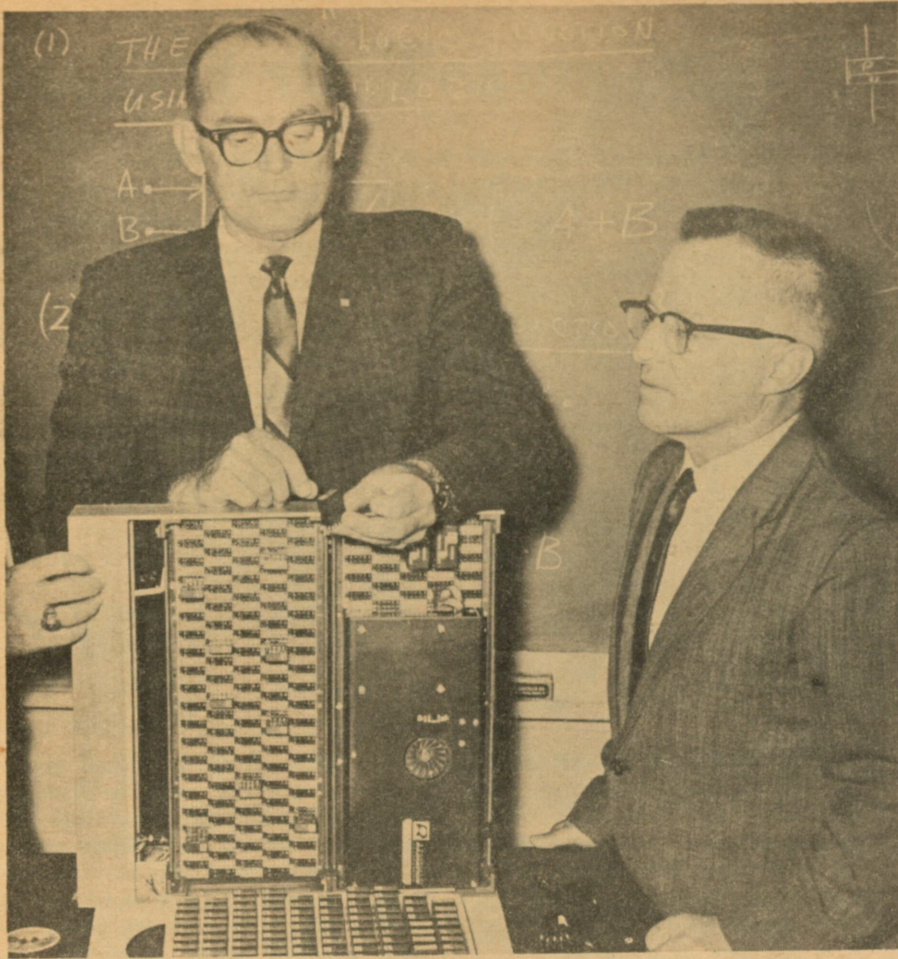

Edwin W. Evans has been released from active duty with the U. S. Navy

and is training with the Trane Co. in LaCrosse, Wis.

1/Lt. James D. Hooper has graduated from the training course for U. S. Air Force instructor pilots at Randolph AFB, Tex. He has been reassigned to Hurlburt Field, Fla.

Capt. William E. Owen, Jr., has received the first oak leaf cluster to the U. S. Commendation Medal for meritorious service during the Dominican crisis. He is now an instructor in the Squadron Officer School at Maxwell AFB, Ala.

ALUMNALITIES—Continued

AUBURN GETS NEW DIGITAL UNIT—Boosting Auburn University's electrical engineering program is this new model transistorized digital training device presented to the School of Engineering by Radiation Incorporated of Melbourne, Fla. Pictured above are Harold E. O'Kelley '47, vice-president-general manager of the Radiation Systems Division; and Prof. M. A. Honnell, acting head of the electrical engineering department at Auburn.

Florida Firm Gives Training Unit

New impetus has been given Auburn University's instructional program in electrical engineering with the gift of a \$5,000 digital training device recently presented by Radiation Incorporated of Melbourne, Fla.

President J. A. Boyd said his company is presenting the custom designed equipment to Dean Fred H. Pumphrey to "help further engineering education in the design and application of digital circuits."

The device is one of the most recent developments by Radiation Incorporated, which engages primarily in government design and development in telecommunications. The equipment employs welded plug-in modules and wire wrapped interconnections, making a highly flexible "breadboard" unit for building up logic circuitry problems.

Using this equipment, Boyd pointed out, the student engineers will be able

44 To Take Part In NSF Summer Institute Here

A grant of \$63,280 from the National Science Foundation will support 44 participants in the 1966 summer institute for high school mathematics teachers to be held at Auburn from June 13 to August 23. Twenty-five teachers will return from last summer's program and 19 new teachers will be selected.

According to Dr. Robert K. Butz, director of the institute, "We hope to select the 19 new participants from teachers with no previous institute work." Requests for applications should be sent to Dr. Butz of the Auburn Mathematics Department before Feb. 15.

Participants will receive a stipend, dependency allowance, and a travel allowance in addition to tuition and fees for the institute. Each of the six courses to be taught carries five hours credit and may be applied toward the master of education or the specialist in education degree.

to design sub-systems with a complexity of up to 240 circuits. The unit is provided complete with a power supply, regulators, contact boards, and power bussing.

Delivering the equipment to Auburn was Harold E. O'Kelley, vice-president-general manager of the Radiation Systems Division. He is an Auburn alumnus, class of 1947, and was a member of the electrical engineering faculty here from 1948-57. The company employs a number of Auburn alumni, among them John T. Hartley '51, vice-president for physical electronics; Grady Hartzog '55, director of aero systems marketing department; William T. Edkins '50, principal engineer; Daniel D. McRae '51, principal research engineer; and E. O. Cubbedge '54, project schedule specialist.

Prof. M. A. Honnell, acting department head, pointed out that the new transistorized equipment provides the first major step in the development of a digital laboratory.

Of benefit to the undergraduate training program, the device will be of even greater value in new graduate courses in switching circuits and digital systems started last quarter under Dr. Chester C. Carroll, Prof. Honnell noted.

Primary objective of the department in this area of study is the training of engineers in the design and development of digital systems and computers. To accomplish this, Prof. Honnell explained, requires understanding of the digital system from the operational standpoint. The new training device, which can be developed into a small computer for data processing, provides the student with a flexible aid for these studies.

Ransom D. Braswell, Jr., began work in December as a research assistant for the Baptist Sunday School Board in Nashville, Tenn.

Annie Coggan Johnston and her husband Dillon have returned from France and live in Charlottesville, Va. Dillon is working on a Ph.D. in English and Anne is teaching French.

Tom Doner is an elementary school principal in DeKalb County, Georgia. He and his wife, Barbara Bradford '57, have two children—Scott, 8, and Kim, 6.

Capt. Richard D. Farris is a veterinarian with Walter Reed Health Institute of Research in Washington, D. C.

Eduardo E. Alvarado has obtained registration as an architect in both Virginia and the District of Columbia.

Larry Clements is with the Forest Management Division of the Tennessee River Pulp and Paper Co. at Cherokee, Ala.

GOVERNOR RECEIVES NEW PUBLICATION—Gov. George C. Wallace, receiving a copy of "Alabama Encyclopedia" from its author, Dr. Jesse M. Richardson of Auburn University, has hailed the new data book for its value to citizens and to industrialists considering location in this state. The comprehensive reference book with more than 1,000 pages of indexed information is published by The American Southern Publishing Co., Northport.

Richardson Edits State Reference

Dr. Jesse M. Richardson of Auburn University is the editor of "Alabama Encyclopedia," termed the most descriptive book ever to be compiled on Alabama. The book will be of special value to industrialists considering location in Alabama, according to Gov. George C. Wallace who received one of the first copies following its publication in late 1965.

"Alabama Encyclopedia," published by The American Southern Publishing Company of Northport, contains more than 1,000 pages of historical information, geographic and industrial data, and educational and governmental directories.

Of his up-to-date reference book, Dr. Richardson says, "An informed citizenry is one of the greatest strengths of any state or country. Alabama is a state with many natural and human resources. The first step toward their full development and utilization is an awareness of their existence, their present status, their potential."

To this end, Dr. Richardson points out, the "Alabama Encyclopedia" contains the latest available information on a wide range of subjects presented in as condensed and usable form as is practical. He views the book as a valuable asset to the librarian, teacher, student, professional and business leaders, or to the average citizen of the state.

"Alabama Encyclopedia" is a revised and much expanded version of an earlier book by Dr. Richardson, "Alabama Al-

manac and Book of Facts," published in 1955 and the first major effort of this type undertaken in compiling a wide range of useful information on Alabama.

Dr. Richardson, a professor of economics and business administration at Auburn, has expressed appreciation to the many state governmental agencies, industries, professional and business organizations and others providing the basic information for the book which he says would have been impossible otherwise.

Distribution of the book which retails for \$10 per copy will be handled through special sales representatives of the publishing company as well as through regular dealers, according to company officials. Future revisions to keep the reference material current are also planned, according to the editor and his publishers.

AUBURN CLUBS

The Jefferson County Auburn Club honored 20 Auburn senior and five-year football players at its annual banquet on Dec. 1. Coach Ralph Jordan presented watches to the seniors and other gifts to the five-year players.

The Montgomery Auburn Club joined the Montgomery Quarterback Club to honor Coach Shug Jordan and his team at the annual Ladies Night Party on Nov. 29. Special guests included Coach and Mrs. Jordan, Auburn Athletic Director Jeff Beard and Mrs. Beard, National Auburn Alumni President Ken Lott and Mrs. Lott, and Montgomery Auburn Club President Bill Joseph and Mrs. Joseph.

The Athens, Ga., Auburn Club has elected new officers. They are: president, George P. Edwards '49; vice-president, W. A. "Bill" Craig '54; secretary, Mrs. Florence Culpepper Gorham '60; and treasurer, Attie A. Fleming '43.

"PROJECT LOVE" AIDS VIETNAMESE TOTS—Hoping to make a brighter Christmas for 1,000 children in South Vietnam, 121 Auburn coeds traded several evenings of fun for the privilege of dressing dolls to be distributed personally by members of the First Cavalry from Ft. Benning now serving in the area of conflict. Members of the Dana King Gatchell Home Economics Club worked to dress the dolls in clothing similar to that worn by the Vietnamese children, using their own assembly line. "Project Love" was a community effort originating in Columbus, Ga., for members of the First Cavalry, who were stationed at Ft. Benning before going to Vietnam.

MRS. LESLIE . . . National Leader

Helen K. Leslie '43 Heads Clubwomen

Mrs. Helen Krauss Leslie '43 of St. Petersburg, Fla., is used to being "on the go" as a civic worker and boss lady for four mechanical contracting firms she and her brother Otto Krauss own. Now, as the 1965-66 head of the National Federation of Business and Professional Women, Mrs. Leslie will be even busier serving the 175,000 women who make up the organization.

During her 22 years of membership in the BPW, Mrs. Leslie has served the organization on local and national level as well as serving her community and state. A few of her civic activities include serving as a member of the Florida Governor's Commission on the Status of Women surveying working conditions, a member of the Mayor's Safety Committee in St. Petersburg, the Civil Defense Advisory Committee, Police Athletic League, and the Florida Textbook Committee.

In 1957 she helped form the Puerto Rico Federation of BPW, and in 1959 she was a member of the first Hemispheric Friendship Committee. As a member of the group who made a goodwill tour of Central and South America in 1960, Mrs. Leslie helped make possible the first Conference of Business and Professional Women of the Americas. Recently she spent 16 days in Germany as a guest of the German government where she toured eight German cities in the interest of international understanding.

The wife of lumber executive Wendell Leslie, Mrs. Leslie is a musician and devotee of all the arts and when time permits she loves to sail and play golf.

Education as a chemistry teacher.

Harriet Lee Tyler teaches fifth grade in Lilburn, Ga.

Chrysler To Sponsor Visiting Professors

Chrysler Corporation has awarded a \$7,500 grant to Auburn University for a year's Distinguished Visiting Professor program in the School of Engineering. The grant provides for lecturers from industry and other schools in all fields of engineering, according to Dr. Fred H. Pumphrey, dean of the School of Engineering.

"We are most appreciative of the cooperation from Chrysler in developing our program at Auburn to a position of true excellence," Dean Pumphrey said upon accepting the grant. "We sincerely trust that this will yield big dividends to Chrysler as our graduates move into the Chrysler organization and particularly into the Chrysler Space Division at Huntsville."

Among the distinguished visitors to Auburn will be Dr. Phillip Lett of Chrysler Corp. who will discuss mechanical engineering with emphasis on space.

don B. Johnson Jr. High School in Eau Gallie, Fla.

Vicki Steele Williams teaches third grade at River Heights School in Logan, Utah. Her husband, Emmett, is a senior in Criminology at Utah State University.
